

Exilis™ testimonial

Page 2

The most important testimonial about this device is that we are having difficulty scheduling patients for the treatment because it is so popular. In fact, we are in the process of ordering a second device for this very reason and cannot wait for it to arrive. We plan to add another technician to our staff and expand hours to accommodate the patients who want this treatment.

Without a doubt, this technology has been one of the most pleasant surprises and effective devices in terms of practice building, patient satisfaction, clinical results and revenue generation that I have worked with throughout my nearly 20 years of cosmetic laser practice.
